BOLETÍN EPIDEMIOLÓGICO

VIGILANCIA CONVENCIONAL

PRESENTACION

El Boletín Epidemiológico semanal del Sistema Único de Información, es el medio oficial de difusión de la morbilidad del Sistema Nacional de Vigilancia Epidemiológica (SINAVE). Este documento responde al inciso 10.1 de la Norma Oficial Mexicana, para la Vigilancia Epidemiológica (NOM-017-SSA2-2012), que a la letra dice, “La información resultado de la vigilancia epidemiológica debe difundirse a través de reportes impresos o electrónicos que favorezcan la accesibilidad a los datos, de acuerdo con lo establecido en el apéndice informativo C y los manuales correspondientes”. Así mismo da cumplimiento al Reglamento Interior de la Secretaría de Salud, el cual establece en el Capítulo X, Artículo 32 Bis, inciso XIII que la Dirección General de Epidemiología debe “Difundir en forma oportuna los resultados e información generada por las acciones de vigilancia epidemiológica”. Este boletín cumple con la función de, difundir los casos nuevos, de padecimientos sujetos a vigilancia epidemiológica de 146 enfermedades desagregados por grupos de edad y sexo, jurisdicción e institución. La publicación es de edición semanal, como lo indica la normativa, para lo cual, queda abierta la convocatoria a publicar, casos clínicos, artículos epidemiológicos o eventos de interés para la comunidad científica y académica de los diversos sectores, que permita la toma de decisiones en salud. Ponemos a su disposición los datos de contacto: epi.boletin.riesgo@gmail.com , Tel. 747 47 118 63, Dirección de Epidemiología y Medicina Preventiva de la Secretaría de Salud del Estado de Guerrero.

El Boletín Epidemiológico, Sistema Nacional de Vigilancia Epidemiológica, Sistema Único de Información, es de publicación semanal, editada por la Secretaría de Salud del Estado de Guerrero, a través de la Dirección de Epidemiología y Medicina Preventiva, Av. Ruffo Figueroa No. 6 Col. Burócratas, Chilpancingo, Gro. Tel. 747 1 18 63 epi.boletin.riesgo@gmail.com ISSN: (En proceso). Responsable de la última actualización Dra. Inés Olea Radilla.

LA HIGIENE DE MANOS

Es el procedimiento mediante el cual se elimina la flora bacteriana transitoria de la piel de las manos por acción mecánica, independientemente de la utilización de guantes.

La higiene médica de manos se refiere a las prácticas de aseo relacionadas con procedimientos sanitarios. En este caso, el objetivo principal es proteger a los pacientes de agentes patógenos y productos químicos que puedan causar daños, previniendo enfermedades e infecciones relacionadas con la atención sanitaria.

La higiene de las manos la deben realizar todos los profesionales de la salud implicados en el cuidado de los pacientes, así como los pacientes, sus familiares y los visitantes que les atienden.

La Organización Mundial de la Salud (OMS), establece momentos críticos en los que el médico debe lavarse las manos:

- Antes de tocar al paciente.
- Antes de realizar una tarea limpia o aséptica.
- Después del riesgo de exposición a líquidos corporales.
- Después de tocar al paciente.
- Después del contacto con el entorno del paciente.

Es recomendable que los profesionales mantengan las uñas cortas y limpias, para evitar la rotura de guantes. Además, no deben usar anillos, relojes y pulseras durante su trabajo, porque pueden ser un reservorio de microorganismos.

- **Lavado de manos:** Se considera a la higiene de manos con agua y jabón. Se utiliza cuando las manos estén visiblemente sucias o hayan tenido contacto con secreciones.

- **Desinfección de manos:** Se considera a la higiene de manos con un preparado de base alcoholada al 70%.
Se debe realizar cuando las manos estén contaminadas, pero no hay suciedad visible (Ambas son complementarias).

Los Establecimientos de Atención Médica de las Dependencias del Sector Salud del Estado de Guerrero: ISSSTE, SEDENA, SEMAR, IMSS ORDINARIO E IMSS BIENESTAR, participaron activamente como cada año en conmemoración al 5 de mayo: **“Día Mundial de la Higiene de Manos”** con diversas actividades de difusión: como son desfiles, capacitaciones, conferencias, simposios, periódicos murales, videos y spots, siendo este año el lema: **“Guantes a veces, Higiene de Manos Siempre”**, todo ello como una medida para concientizar que la higiene de manos es crucial para prevenir y reducir el riesgo de contraer enfermedades y con ello se evita la transmisión de patógenos a otras personas, especialmente en entornos de atención médica.

Actividad Lúdica
“Manos limpias manos felices”

Desfile alusivo a la conmemoración de
"Higiene de Manos"

Capacitación a personal de salud,
